

Medical and Dental Collections

The first choice in consumer and commercial debt collection

Medical and Dental Collections

Health Care providers face increasing pressure to collect billings and lower their ever-increasing operating expenses. Cypress Asset Recovery knows medical/dental collections.

Cypress Asset Recovery has the ability, skill and knowledge to meet the needs of all medical /dental service organizations. Whether you are a large medical practice with multiple doctors or dentists or a single medical/dental practitioner. Our third party intervention program is specifically designed for medical and dental collections and will assist providers in remaining financially viable while staying focused on their core competencies and their ultimate mission of providing quality patient care. Our effective, diplomatic and benevolent approach ensures that providers will retain a relationship with their patients and in turn increase future profitability, improve customer service, and resolve staffing issues and give you access to sophisticated collection technology and support. Our solutions will positively impact your bottom line, quickly and efficiently.

Cypress Asset Recovery strives to exceed all laws and regulations governing healthcare collections including the health insurance portability and accountability Act (HIPAA), Fair Debt Collection Practices Act (FDCPA), Fair Debt Reporting Act (FCRA) the Federal Trade Commission Act (FTC) and the Gramm Leach Bliley Act (GLBA) as well as the American Hospital Associations guidelines on billing and collection practices.
